**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The UN says Internet access is a basic human right, and limiting the number of providers ensures large corporations can deny access to this right for their own gain. My own quality of life has improved dramatically with the innovations provided by Sonic, my local fiber network, whose Gigabit speeds allow me to work reliably from home where doing so was impossible with Comcast "fast" internet. Please oppose any action which limits our ability to choose a competitive broadband provider.

Thank you.
